

MMO Probe Anode

MMO Probe Anode (YXP Series) is a fabricated MMO coated titanium rod anode, carefully sealed into a stainless-steel housing. YXP Series have been widely used in water boxes, pressure vessels, internal walls and pipe housings, water-cooling systems in power plants and in other industrial applications.

APPLICATION

- ▶ Heat exchangers
- ▶ Pumps
- ▶ Valves
- ▶ Pipes
- ▶ Marine

FEATURES

- ▶ Stainless steel housing
- ▶ Superior sealing system
- ▶ Waterproof and rigorously tested
- ▶ High pressure & impact resistant
- ▶ Easy to install and replace
- ▶ Available in standard sizes or custom sizes to fit the application

SPECIFICATIONS

Outer & Inner Diameter of the protected Pipeline	Anode Dimension
Current Output Request	MMO Anode Active Length
Housing Material	Stainless Steel or PVC available
Life Expectancy	Coating Chemical Composition & Thickness
Electrolyte, Flow Rate and Temperature
