

## Vent Pipe

---

YUXI vent pipe is a plastic pipe made of polyvinyl chloride (PVC) resin without plasticizer. Perforated PVC vent pipe is designed for use in cathodic protection deep anode wells to displace chlorine gas generated by the discharge of DC current from the impressed current anodes. Vent pipe can also be used to add water to a deep well if drying occurs.

Vent pipe connection methods include socket rubber ring connection, adhesive connection and flange connection.

## FEATURES

---

- ▶ Good corrosion resistance
- ▶ No conductive
- ▶ Flexiable
- ▶ Smaller modulus of elasticity
- ▶ Light weight and convenient transportation

## SPECIFICATIONS

Property	Data
Material	PVC
Diameter	Φ50mm
Wall Thickness	2.4mm
Bottom Hole Diameter	1/16", 1/8" or as required
Hole Spacing	As specified but typically 6" apart
Outer Sheath	Geo textile Cloth
